GMT soil physics

wikipedia pdf - Soil

science is the study of soil

as a natural resource on the

surface of the Earth

including soil formation,

classification and mapping;

physical, chemical,

biological, and fertility

properties of soils; and

these properties in relation

to the use and management

of soils. Soil science -

Wikipedia - A soil type is a

taxonomic unit in soil

science. All soils that share

a certain set of well-defined

properties form a distinctive

soil type. Soil type is a

technical term of soil

classification, the science

that deals with the

systematic categorization of

soils. Soil type - Wikipedia
